

Assemble hinge with pin. Clip off excess and with side cutting pliers. Bend at 90 degree. Cut slots with razor knife in the model structure and the control surface to receive hinges. Apply SIG Epoxy glue to slots and hinges. Push hinge into slots, taking care that excess glue is not forced into the hinge center. For extra strength, drill a hole through structure and hinge. Apply glue to hole and insert a round toothpick. Cut toothpick off flush with surface of model.

ADJUSTABLE TIP WEIGHT BOX (OPTIONAL)

ABOUT Balsa Wood
We do our best to put a good grade of balsa in our kits. However, the quality of balsa wood varies from year to year. It is recommended to inspect the balsa wood in your kit before you begin construction. If you find a piece of balsa wood that is not of good quality, please contact us for a replacement. We will be happy to provide you with a replacement piece of balsa wood. Please note that we do not accept returns on balsa wood.

AN ASTERISK * INDICATES AN ITEM NOT FURNISHED IN THE KIT. IF THE SUGGESTED BRAND NAME IS NOT AVAILABLE AN EQUIVALENT PRODUCT MAY BE SUBSTITUTED.

WARNING-DANGER!
DO NOT FLY MODEL AIRPLANES NEAR ELECTRIC POWER LINES. INSTANT DEATH CAN RESULT FROM CONTACT WITH, OR FLYING TOO CLOSE TO, ELECTRIC POWER LINES.
